**REVIEWS, ORIGINAL ARTICLE,
POSTER, SYMPOSIUM,
CONGRESS REPORTS, WORKSHOP**

PSA Free/Total Dual Label Kit: Its Significance in the Early Diagnosis of Prostate Cancer.....1	Problematik von Matrixeffekten bei Kontrollproben in der Labordiagnostik153
Evaluation of Chemiluminescence Immunoassays for Detecting Thyroglobin (TG) and Thyroid Peroxidase (TPO) Autoantibodies Using the Immulite® System.....7	Typisierung von Staphylococcus epidermidis- Isolaten mit Hilfe von drei genotypischen Verfahren159
Photometrische Bestimmung der antioxidativen Kapazität des Serums mit p-Benzochion15	Characterization of Circulating Blood Monocyte Subpopulations in Middle-Aged Women169
IRMA und ELISA Referenzbereiche für IGF-1 und IGFBP-3 im Kindes- und Jugendalter, Korrelation zum Nebennierenmarker DHEA-S23	40.Jahrestagung der Arbeitsgemeinschaft der Ärzte Staatlicher und Kommunalen Bluttransfusionsdienste e.V. (Teil II)
Molekularbiologische Deutung stoffwechselftoxischer Mechanismen und Möglichkeiten einer Einschätzung der potentiellen Toxizität von Metallen, dargestellt am Beispiel von Quecksilber und Eisen33	<ul style="list-style-type: none"> • Zertifizierung von Blutspendediensten aus Sicht eines Beraters177 • Blutspenderwerbung in Magdeburg181 • Blutspenderwerbung in Leipzig183 • Statistische Probleme bei der Erstellung einer Eigenblutindikationsliste189 • Leukozytendepletion: Eine Methode zur Qualitätsverbesserung von Vollblutkonserven?.....195 • Chemistry, Biologie, and Potential Role in Clinical Medicine of Hemoglobin Solutions: The Example of Diaspirin Crosslinked Hemoglobin (DCLHb)203
Quality Control in Neonatal Screening for Inborn Errors of Metabolism51	Determination of Natural and Synthetic Estrogens by Radioimmunoassay (II). Development of a Sensitive and Highly Specific Method for the Determination of Estrone and Adaptation of this Assay to the Quantitation of Estrone Sulfate251
Prothrombin (Faktor II) – Mutation 20210 Ein neuer hereditärer Risikofaktor für Thromboembolien.....61	Reference Values of Serotonin in Urine and Plasma Determined by High-Performance Liquid Chromatography with Electrochemical Detection263
40. Jahrestagung der Arbeitsgemeinschaft der Ärzte Staatlicher und Kommunalen Blutspendedienste e.V. (ARGE) – Teil I	Freies Desoxyipyridinolin im Urin: Vergleich eines neuen automatisierten Chemilumineszenz- Immunoassays mit HPLC und ELISA Techniken269
<ul style="list-style-type: none"> • Editorial.....63 • Peripheral Progenitor Cell Collection and Transplantation from the View of Transfusion Medicine in 1997....64 • Processing of Cord Blood as a New Challenge for Blood Banks69 • Stammzellen: Neues über die Qualitätskontrolle75 • Einführung der routinemäßigen NAT-Testung in die Transfusionsmedizin77 • Routine Performance of PCR or Other Nucleic Acid Based Assays for Blood Donor Screening – a Critical Evaluation83 • Diskussionsbeitrag zum Thema: PCR – routinemäßige Einführung87 • Additional Remarks to the Data Presented by Dr.Lefèvre, Hagen87 • Fortbildung für Fachärzte für Transfusionsmedizin89 • Ausbildung für verantwortliche Ärzte in blutgruppenserologischen Laboratorien.....91 	Osteocalcin and Other Serum Bone Biochemical Markers in a Healthy Population277
Urinary Free Deoxyipyridinoline: Comparison of a New Automated Chemiluminescence Immunoassay with HPLC and ELISA Techniques129	Chlamydia trachomatis Infection in Pelvic Inflammatory Disease (PID) Prevalence and Comparative Methodology285
Determination of Natural and Synthetic Estrogens by Radioimmunoassay (I) Comparison of Direct and Extraction Methods for Quantification of Estrone in Human Serum137	21-Hydroxylase-Antikörper in der Differentialdiagnostik der primären Nebennierenrindeninsuffizienz291
SynthASil™- ein neues APTT-Reagenz auf der Basis von synthetischen Phospholipiden145	Bericht des Expertenkomitees für Diagnose und Klassifikation des Diabetes Mellitus297
	Results from the Multicenter Evaluation of a New, Latex Based D-Dimer Test on STA and STA Compact299
	„Derived Fibrinogen“ by PT and APTT Measurement.....303
	Regional Intercountry Workshop on Quality Assurance in Laboratory Medicine (Part 2)309
	Performance of a Chemiluminescent Immunoassay for HbsAg on the New High-Throughput and Fully Automated ACS: Centaur™ System349

INDEX

<p>Evaluation of the Enzyme Linked Mini-Sequence Assay – A New Procedure for the Typing of Human Platelet Antigens of Platelet Donors and Patients355</p> <p>Clinitek-Microalbumin®: Ein Teststreifen auf rein chemischer Basis zum systematischen Nachweis einer Mikroalbuminurie Ergebnisse einer klinischen Erprobung361</p> <p>Unterstützung des kulturellen Nachweises von Chlamydia trachomatis durch einen speziesspezifischen ELISA369</p> <p>Evaluation of a Testing Laboratory in a Transportable Housing Unit for Screening of Blood Donation Samples.....373</p> <p>Deutsche Diagnostika Gruppe e.V. Seminar-Medica '97</p> <ul style="list-style-type: none"> • Vorstellungen zu möglichen rechtlichen Regelungen zum Qualitätsmanagement / zur Qualitätssicherung in medizinischen Laboratorien380 • Statistische Qualitätskontrolle in der Laboratoriumsmedizin384 • Betreiberverordnung aus der Sicht der Ärzteschaft391 • Pflichten der Betreiber in Bezug auf In-vitro-Diagnostica (Geräte und Reagenzien)394 • Qualitätsforderungen an die Untersuchungsverfahren396 <p>Evaluation of a Novel Enzymune Assay for the Detection of Antibodies to Human Immunodeficiency Virus Types 1 and 2, Including Subtype-O of HIV-1427</p> <p>Efficient Screening for Lupus Anticoagulants (LA) Using Recombinant Thromboplastin in Three Different Dilutions Comparison between a recombinant thromboplastin with 4 established reagents for the screening of LA.....433</p> <p>Flow Cytometric Analysis of Immunoparalysis441</p> <p>A Reliable Method for the Removal of PCR Inhibitors During the Preparation of Bacterial DNA from Stool Specimens ...447</p> <p>Vorläufige Erfahrungen mit Procalcitonin, C-reaktivem Protein, Neopterin, ausgewählten Zytokinen und Hämostaseparametern an Patienten mit malignen hämatologischen Erkrankungen, bei Zystostatika-induzierter Neutropenie und Fieber451</p> <p>LabAutomation '98463</p> <p>XII. INDEX

High Prevalence of Thyroid Autoantibodies in Elderly Patients: Do Age-Dependent Reference Values Increase the Specificity ?	845
Concentration of Lysosomal Enzymes and Disease Activity in Ankylosing Spondylitis	849
The Role of Bone Alkaline Phosphatase (BAP) as a Diagnostic Marker of Fracture Repair	855
Determination of Total Immunoglobulin E by a Latex-enhanced Turbidimetric Assay	859
Preanalytical Processing of Urine Samples for Enzyme-Test [®] β -CrossLaps	867
Analytical Performance of the New Single Step COBAS [®] Core NSE EIA II and its Diagnostic Utility in Comparison with the Established COBAS Core NSE EIA	871
Biological Variability of Six Urinary Bone Resorption Markers in Premenopausal Women	881
Analytical and Clinical Evaluation of a Highly Sensitive Assay for Thyrotropin (COBAS [®] Core TSH 3 rd gen EIA)	885
Durchführung und Interpretation serologischer Tests bei Verdacht auf Borrelioseninfektion	897
Abbott Prism [®] HCV: Detection of Antibodies in Seroconversion Panels in Comparison to other Immunoassays	903
BNLD-Bericht: Internet in der Labordiagnostik	907
BNLD-Bericht: Umsetzung des Transfusionsgesetzes in Krankenhäusern der Akutversorgung	911
Evaluation of an Immunoturbidimetric Assay for the Measurement of Glycated Haemoglobin	937
Time, Team and Competition as Quality Criteria in the Preanalytical Phase.....	943
Bacterial Vaginosis and the Normal Vaginal Flora: A Dynamic Relationship	949
The Surveillance Network TM (TSN TM) a Powerful Weapon in the Fight Against Antibiotic Resistance	961
Das Nephrologische Konsil: Muskuloskelettale Schmerzen und Hypophosphatämie	965
Low Specificity of MUC1 as a Marker to Detect Epithelial Cancer Dissemination in Human Bone Marrow and Blood.....	971
Serum Sialic Acid. Should it be Measured Clinically and if so how?	979
Fecal Elastase I, Chymotrypsin and Fecal Fat Analysis: Comparison in a Routine Laboratory Setting	989

Main Examination Rules for German Army Blood Donors Including Occurrence of Epidemic Infectious Diseases with Consequences for the Use of the Blood Products	997
Autologous Blood Donation in a Large Clinical Center	1003

matrix effects	153	sepsis	451, 659
mercury	33	seroconversion, HBsAg.....	349
methicillin resistance	159	serology, H. pylori.....	529
methionine	51	serotonin	263
method comparison, antioxidative capacity.....	15	serum, antioxidative capacity.....	15
method comparison, estrone.....	137	sialic acid/serum	979
microalbuminuria	361	SIRS	451, 659
monocyte antigen presentation	441	SIRS/ polytrauma	659
MUC1	971	SI-units, Hg, Fe.....	33
Multicenter Studies, IgE.....	859	species-specific ELISA, C. trachomatis.....	369
mutated primer, α_1 -antitrypsin.....	837	specificity, HBsAg.....	349
Mycobacteria identification	681	specificity, thyroid autoantibodies.....	845
neonatal screening	51	standard operating procedure, flow cytometry.....	441
neopterin	451, 659	Staphylococcus epidermidis	159
Nephelometry and Turbidimetry, IgE.....	859	stool, PCR inhibitor.....	447
neutropenia	451	structural aspects, preanalytical phase.....	943
normal population, osteocalcin.....	277	synthetic phospholipids, APTT.....	145
nosocomial infections	159	systemic hematological disease, procalcitonin.....	451
NSE	871	team, preanalytical phase.....	943
osteocalcin	277	third generation TSH assay	885
p-benzo-quinone	15	thrombocytopenia, hematology analyzer.....	761
PCR, platelet antigens.....	355	thrombophilia, APC resistance.....	569
PCR, mycobacteria.....	687	Thromboplastin inhibition test	427
PCR inhibitors	447	thrombosis, heparin-induced.....	771
PCT, procalcitonin.....	659	thyroid, TSH.....	885
Pelvic inflammatory disease (PID)	285	thyroid autoantibodies	845
peripheral blood, MUC1.....	971	thyroid gland, autoantibodies.....	7
Peripheral progenitor cells	64	thyroid parameters	681
phenylalanine	51	time, preanalytical phase.....	943
PICP	277	TNF- α	451
PKU	51	transfusion medicine. certification.....	177
plasma serotonin.....	263	transfusion probability	189
platelet refractoriness	355	transplantation, progenitor cells.....	64
polymerase chain reaction (PCR), C. trachomatis.....	285	treatment monitoring, H. pylori.....	529
polymerase chain reaction (PCR), HCV.....	651	typing methods, S. epidermidis.....	159
polymerase chain reaction (PCR), HCV.....	747	urethral smears, C. trachomatis.....	369
polymerase chain reaction, α_1 -antitrypsin.....	837	urine, serotonin.....	263
preanalytical phase	943	vaginal flora, vaginosis.....	949
precision, HbA _{1c}	937	Vitros ECi analyzer	681
prevalence, thyroid autoantibodies.....	845	WBC count	761
probiotic therapy, vaginosis.....	949	WBC differentials	761
procalcitonin	451	whole blood filtration	195
promotional activities, blood donors.....	183		
prostatic cancer, PSA.....	1
